

# Discovered Facts Summary

## Working to Align with District Goals

Following is a list of the facts you've discovered while trying to align with District's goals. Those highlighted in green are considered critical findings and should provide maximum assistance in focusing your change efforts. Those highlighted in yellow are considered significant findings as well. Non-highlighted facts are supportive.

Fact	Fact Details
1	<b>Windsor Average SAT Scores Down by 15% Over Past 5 Years</b>
	You review the various standardized testing scores for the district and find they have consistently declined over the past 5 years, with the rate of decrease accelerating in the past two years. The average SAT results in the district has declined over the past 5 years by 15%. This decline has accelerated in the past 2 years.
4	<b>LMS is Seldom Used in Goal Setting / Focus Identification</b>
	You discover that the LMS is not considered by most faculty and administrators as "user friendly" and thus much of the data goes unused and is seldom disaggregated for analytical purposes. You realize that without leveraging this data resource, any improvement strategy would be a "shot in the dark" at best.
